## S y m e t r i a

Founded in 2011, Symetria Limited is an independent design and publishing house specialising in contemporary greetings cards and stationery.

Company Director Ben Joel Price has realised creative visions for a diversity of brands and businesses. His specialist card designs can be purchased from national high street chains, independent card retailers, gift boutiques and galleries across the UK and Europe.

Ben's passion for greetings cards began during the four years of working as a display designer for the world famous toy store Hamleys of London. He was frequently asked to produce personalised, celebratory and leaving cards for the Hamleys team...and on behalf of Hamleys, even a birthday card for the Queen!

In 2012 his designs were projected onto the side of London's prestigious Design Museum for the festive event 'Sparkle the Dark Up'.

In 2013 his *Little Red Bow* design was featured on the BBC.

A modern artist, illustrator and graphic designer, Ben has recently added the title of 'author' to his list of credentials.

His first book *Love bites*, released in January 2014 from Skyhorse Publishing, is based on his best selling greetings card range of the same name. Love bites celebrates the quirks, whimsies, isms, kinks, idiosyncrasies, eccentricities, peculiarities and funny moments of love and life through the medium of food.

His first children's picture book *Earth Space Moon Base* published by Random House US, is due for release in August 2014. The follow up, *In The Deep Dark Deep*, is due for release in 2015.
